

Ambassador

Ensure the comfort of those with special needs...

Accommodations for the physically challenged who require special facilities are met with the Mr. John Ambassador. The extra wide doorway and interior ramp allows easy wheelchair access. The interior features sturdy, reinforced safety bars for support during transfer from wheelchair to toilet. The added features and large interior also make the Ambassador perfect for the elderly and parents with small children or strollers.

The Ambassador is 100% ADA compliant. Its door size (height and width), handrails (height and width), interior turning radius, door closing speed, ramping requirements and direct side transfer from wheelchair to seat all comply with ADA requirements.

> ADA COMPLIANT RESTROOM
