

Platinum Plus Mini

The Mr. John Platinum Plus Mini is the smallest of our luxury models and includes the same lavish design features of the larger versions. Upscale amenities include oak trim and vanity, skylights, marbled sink with hot and cold water and automatic faucets. Double pane skylights with wooden valances provide soft, natural indirect lighting while extra amenities such as air conditioning, heat and stereo offer upscale luxury and comfort.

The Mr. John Platinum Plus Mini arrives on your site fully stocked and features a fresh water holding tank which eliminates the need for city water hook up. The only connections necessary for complete operation are two 30 amp 125 volt power connections.

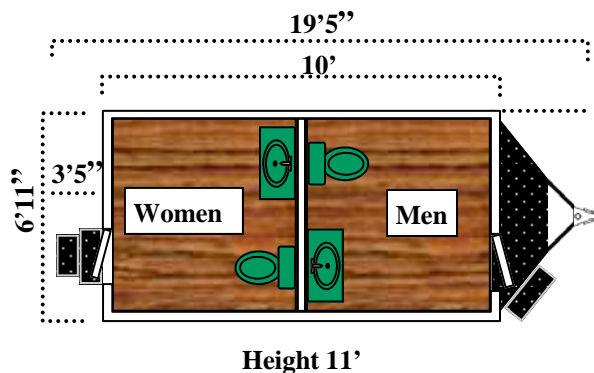

> ELITE MOBILE SUITE
