

The Mini-Flush

Portable, self-contained, and convenient...

The Mini-Flush temporary restroom system is perfectly suited for locations where water and sewer connections are not available, typically sales trailers and remote field office locations. The Mini-Flush is completely self contained and does not require any hook ups. It features a recirculating flush toilet and a hands-free, hygienic, foot operated flush mechanism.

It is ideal for enclosed areas and can easily fit into a storage area or closet.

> SELF CONTAINED TOILET
