

The Guardian

> GUARD SHELTER

Looking out for your security needs...

These professional and comfortable temporary security buildings provide a cost effective solution for the needs of construction sites and other security applications. Each attractive unit is molded for seamless moisture control and exceptional weather resistance.

Screened sliding windows on three sides afford superior visibility and ensure quick access to outside visitors. The Guardian also includes a moisture tight electrical cord port for lighting, fan or other accessories. The roomy interior provides adequate space for comfortable seating and/or other amenities.
